My amazing body

★☆☆
Grade 2

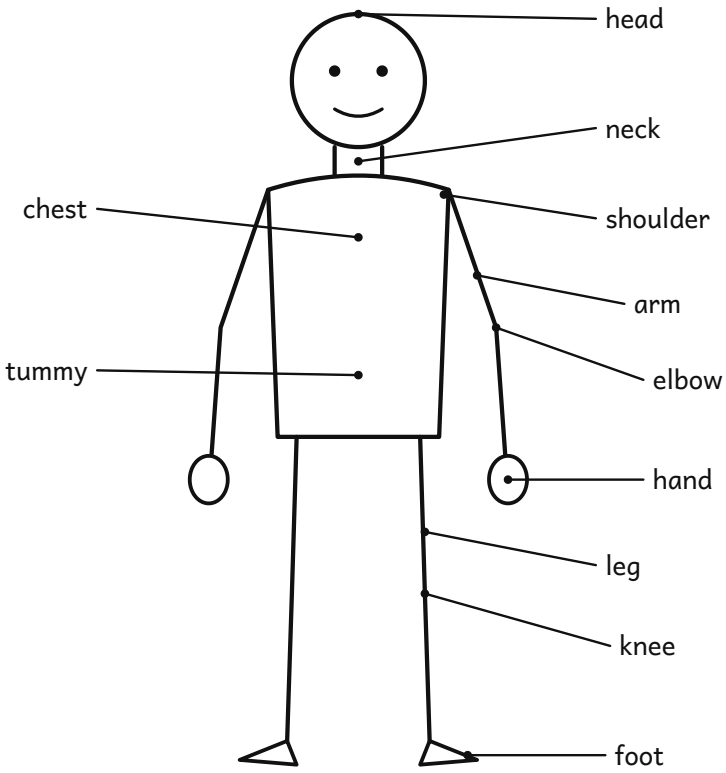

Name: Class: Date:

Learning goals

- Name the outside parts of the body and what they do.
- Name the main organs inside the body and find them on a body outline.
- Explain how bones and muscles work together to hold us up and help us move.

Your body is like a wonderful machine. Every part has a job, and all the parts work together so you can run, play, eat, think and grow.

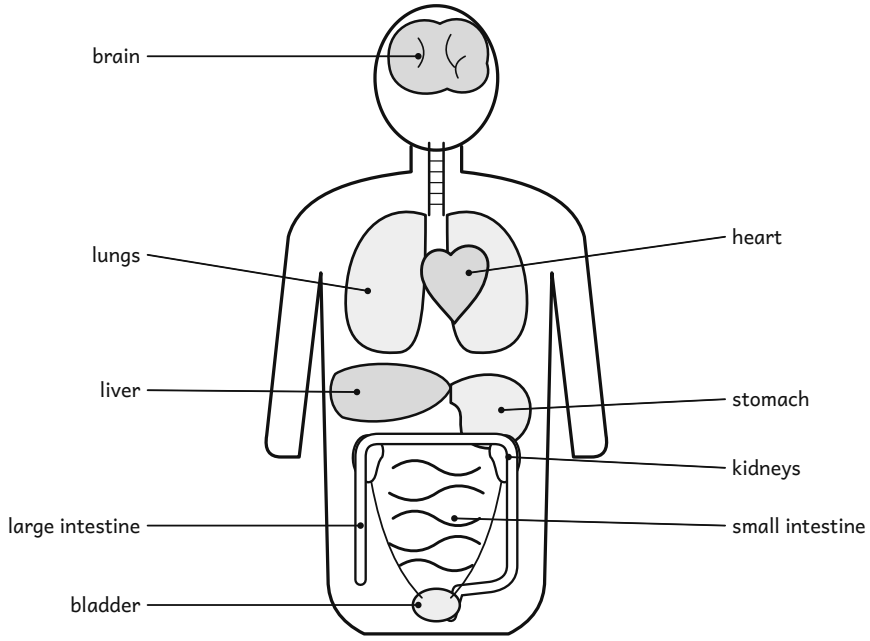

Outside parts

The outside parts of the body.

Your **head** holds your eyes, ears, nose and mouth. Your **arms** and **hands** help you hold and carry things. Your **legs** and **feet** help you stand, walk and run. **Joints** such as your **elbows** and **knees** let you bend.

Inside parts: organs

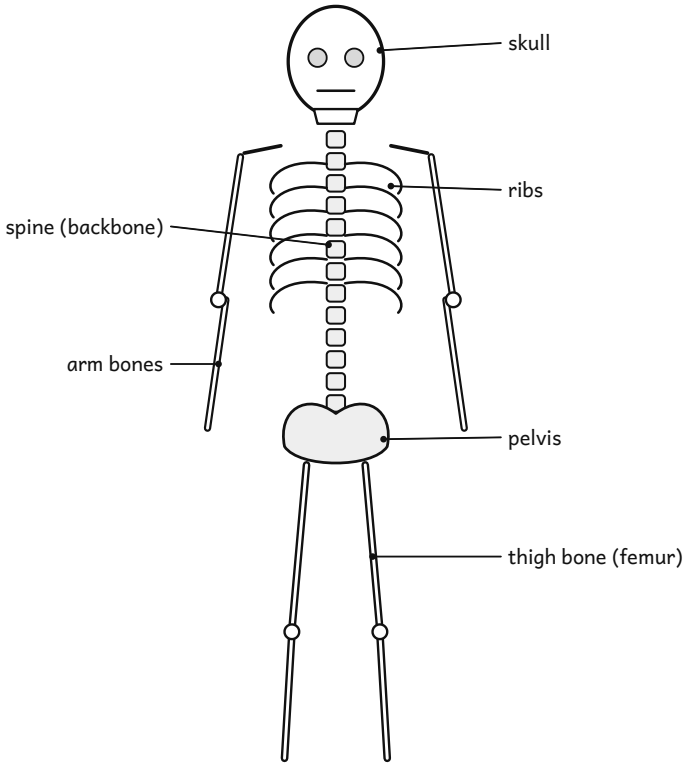

The main organs.

Organ	Its job
brain	controls your body; helps you think and remember
heart	pumps blood all around your body
lungs	take in air when you breathe
stomach	mashes up your food
intestines (small and large)	take goodness from food into your blood; carry away waste
liver	cleans your blood
kidneys	clean your blood and make urine (wee)
bladder	stores urine

Bones and muscles

Inside your body is a **skeleton** made of more than 200 **bones**. It holds you up, gives you your shape and protects soft parts: the **skull** protects your brain and the **ribs** protect your heart and lungs. **Muscles** are joined to bones. When a muscle pulls, the bone moves. Bones and muscles work together so you can move.

Your skeleton.

Did you know?

Your heart beats about 100 times every minute, all day and all night, even when you are asleep!

Try this at home

Put your hand on your arm and bend your elbow. Can you feel the muscle get fat and hard? It is pulling the bone.

Key words

organ	a body part with a special job, like the heart
skeleton	all the bones in your body
muscle	pulls on bones to make them move
joint	where two bones meet and bend

Body parts

★☆☆
Grade 2

Name: Class: Date:

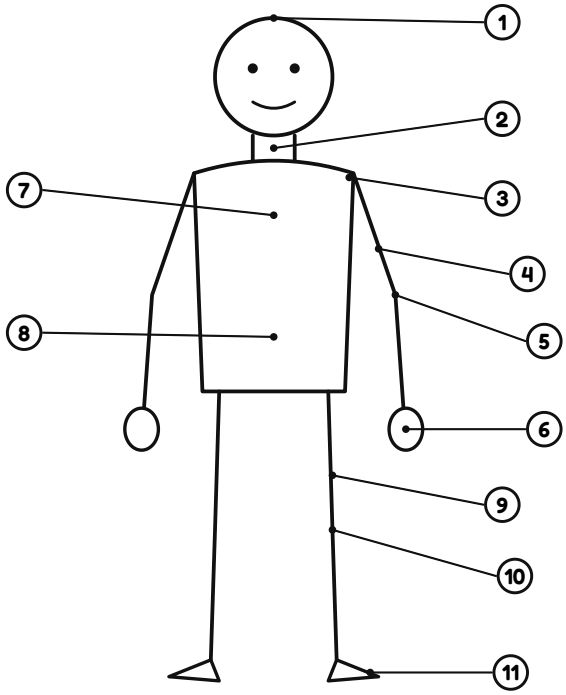

Learning goals

- Label body parts.
- Match organs to jobs.

1 Label the body. [11]

LABELS

head arm shoulder hand neck chest elbow knee foot leg tummy

1 _____ 2 _____

3 _____ 4 _____

5 _____ 6 _____

7 _____ 8 _____

9 _____ 10 _____

11 _____

2 Draw a line to match the organ to its job. [5]

Draw a line to match each pair, or write the letter.

heart ●	● **A** thinks and controls the body
lungs ●	● **B** mashes food
brain ●	● **C** stores urine
stomach ●	● **D** breathe in air
bladder ●	● **E** pumps blood

THINK IT THROUGH · A4 · HUMAN BODY

How does my body work?

★★☆ Grade 2

Name: Class: Date:

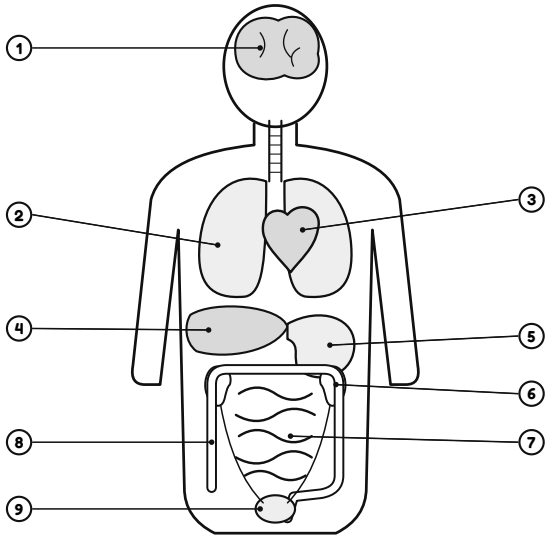

Learning goals

- Explain how body parts work together.

1 Label the organs. [9]

LABELS

liver small intestine stomach brain bladder lungs heart kidneys large intestine

1 _____ 2 _____ 3 _____

4 _____ 5 _____ 6 _____

7 _____ 8 _____ 9 _____

2 Which bone protects your brain? [1]

○ ribs ○ skull

○ backbone

3 How do your bones and muscles help you kick a ball? [2]

.....

.....

4 **Why do you breathe faster when you run?** [1]

InquiryMind
LEARN · PLAY · WONDER

Does exercise change my heartbeat?

★★☆ Grade 2

Name: **Class:** **Date:**

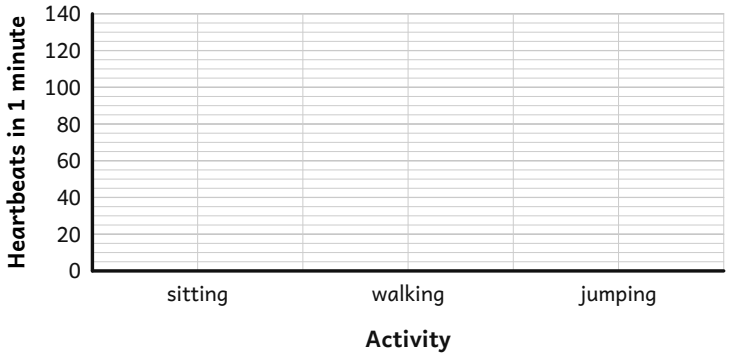

Learning goals

- Count and compare.
- Find a pattern.

Put two fingers on your wrist or neck. Can you feel your heart beating? Count the beats for 15 seconds, then multiply by 4. Do this when you sit, after you walk, and after you jump for one minute.

1 **Here are Rafi's results. Draw a bar chart.** [3]

Activity	sitting	walking	jumping
Beats in 1 minute	84	100	132

2 **What happens to your heartbeat when you exercise?** [1]

3 **Why?** [2]

REAL-WORLD CASE STUDY · A4 · HUMAN BODY

A visit to the doctor

★★★ Grade 2

Name: _____ **Class:** _____ **Date:** _____

Learning goals

- Link body parts to a real visit.
- Learn how doctors check our bodies.

Science | Health

Nadia goes to the clinic for a check-up. The doctor uses a **stethoscope** to listen to her **heart** and **lungs**. She measures Nadia's **height** and **weight**, and looks in her **ears** and **mouth**.

The doctor says, "Your heart is strong and your lungs are clear. You have grown 5 centimetres this year! Keep eating healthy food and playing outside."

A story about a health check-up.

1 **What did the doctor listen to with the stethoscope?** [2]

2 **Nadia was 115 cm tall last year. How tall is she now?** [1]

3 **Draw the doctor checking Nadia.** [2]

At the clinic

★★★
Grade 2

Name: Class: Date:

Learning goals

- Use body words.

1 Find the words.

J	O	L	N	I	J	M	J
T	H	E	A	R	T	E	M
L	Y	E	K	H	A	F	U
U	B	R	A	I	N	U	S
N	C	F	A	S	W	I	C
G	U	S	K	U	L	L	L
S	G	K	I	K	R	L	E
M	B	M	O	B	O	N	E

bone brain heart lungs muscle skull

2 Which organ pumps blood? [1]

◯ heart ◯ stomach

◯ lungs

3 What pulls on bones to make them move? [1]

◯ skin ◯ muscles

◯ hair

4 Challenge. Why do you think your ribs are like a cage? [2]

.....

.....

How am I doing? Colour or tick a circle.

I can...	Not yet	Nearly	Got it!
name the outside parts of my body	○	○	○
name the main organs	○	○	○
say what each organ does	○	○	○
explain how bones and muscles help me move	○	○	○
count my heartbeat	○	○	○
