Solid, liquid or gas?

★☆☆
Grade 2

Learning goals

- Sort materials.
- Name changes.

1 Write solid, liquid or gas. [5]

solid

liquid

gas inside

solid

liquid

2 Sort them. [6]

SORT THESE

brick ice oil air juice steam

Solid	Liquid	Gas
ice	juice	steam
brick	oil	air

3 Fill in the gaps. [3]

WORD BANK

freezes sand melts steam

Ice melts into water when it is warm. Water freezes into ice in a freezer. Boiling water turns into steam.

What will happen?

★★☆
Grade 2

Learning goals

- Predict changes when heating and cooling.

1 **What happens to chocolate on a hot day? Can you change it back?** [2]

It melts. Yes: put it in the fridge and it becomes solid again.

2 **Rina puts a lid on a pot of boiling water. Later the lid is wet inside. Why?** [2]

Steam from the water touched the cold lid and turned back into water drops.

3 **Draw what happens to an ice cube left in the sun.** [2]

start	after 1 hour
an ice cube	a puddle of water

Where does ice melt fastest?

★★☆ Grade 2

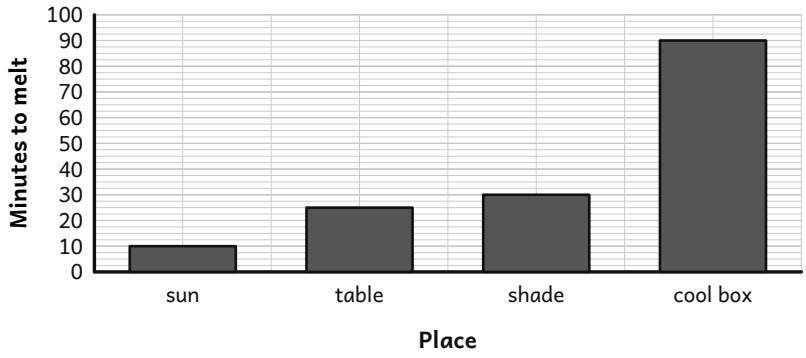

Learning goals

- Do a fair test.
- Time and record.

Class 2A put the same size ice cube in four places and timed how long each took to melt.

1 Draw a bar chart. [3]

Place	in the sun	on a table	in the shade	in a cool box
Minutes to melt	10	25	30	90

2 Where did the ice melt fastest? Why? [2]

In the sun, because it was the warmest place.

3 Why did they use the same size ice cubes? [1]

To make the test fair.

REAL-WORLD CASE STUDY · C1 · SOLIDS, LIQUIDS, GASES

The ice cream seller

★★★
Grade 2

Learning goals

- Use melting and freezing in real life.

Science | Food | Maths

On hot afternoons, an ice cream seller pushes his cart near the school. Inside the cart is a box with thick walls and lots of **ice**. The ice keeps the ice cream cold so it does not **melt**.

In the morning he buys ice from the ice factory, where water is **frozen** in big machines. By evening most of the ice has melted into water.

A story about an ice cream cart.

1 **Why does the seller need ice in his cart?** [2]

To keep the ice cream cold so it stays solid and does not melt.

2 **What happens to the ice by evening? Is it a solid or a liquid now?** [2]

It melts into water, a liquid.

3 **The seller sells 6 ice creams every hour for 4 hours. How many does he sell?** [1]

6 × 4 = 24

Show what you know

★★★
Grade 2

Learning goals

- Use matter words.

1 Find the words.

G	K	T	S	S	I	N	E
A	R	R	D	T	R	C	W
S	O	L	I	D	E	P	E
O	N	D	H	J	R	A	U
L	I	Q	U	I	D	V	M
N	D	M	E	L	T	L	O
K	N	L	H	T	A	N	O
E	N	D	C	A	A	K	G

gas ice liquid melt solid steam

2 Which is a liquid? [1]

○ a stone
● **milk**
○ air

3 Water turns into ice when it... [1]

○ melts
● **freezes**
○ boils

4 Challenge. Is air matter? How do you know? [2]

Yes. It takes up space: when you blow up a balloon, the air fills it.
