Parts of a plant

★☆☆ Grade 2

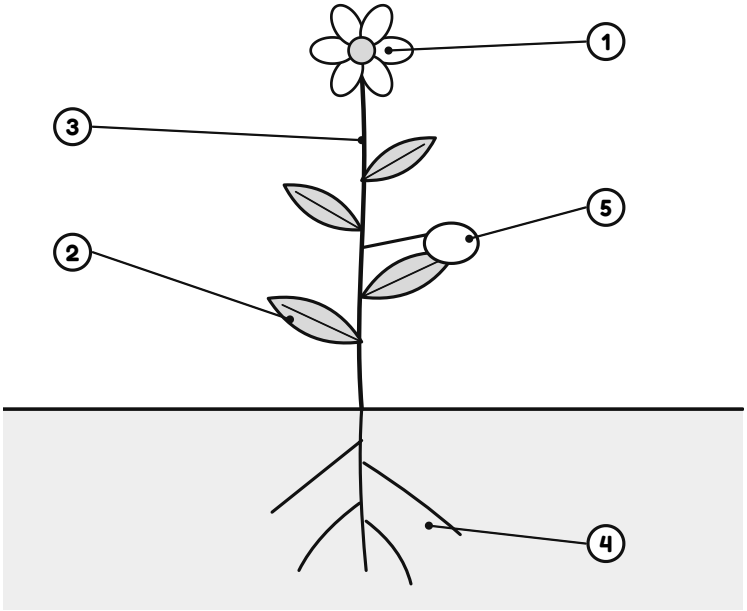

Learning goals

- Label a plant.
- Say what plants need.

1 Label the plant. [5]

LABELS

flower leaf roots stem fruit

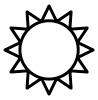

1 flower
2 leaf
3 stem
4 roots
5 fruit

2 Draw a line to match. [4]

Draw a line to match each pair, or write the letter.

roots ●	→ A	● **A** take in water
stem ●	→ C	● **B** make food
leaves ●	→ B	● **C** carries water up
flower ●	→ D	● **D** makes seeds

3 **Circle what a plant needs to grow.** [3]

 water	 light	 chocolate	 warmth	 a ball

water, light, warmth

4 **Fill in the gaps.** [3]

WORD BANK

flower stem light roots

Water goes into the plant through the roots. It travels up the stem. Leaves need light to make food.

THINK IT THROUGH · A1 · PLANTS

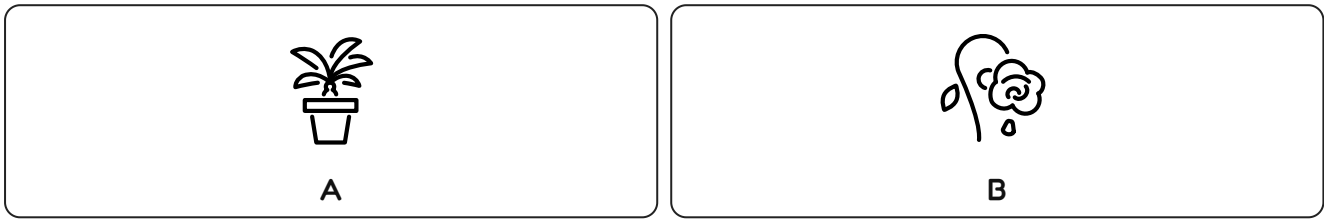

Why did it happen?

★★☆
Grade 2

Learning goals

- Explain what happens when plants do not get what they need.

1 **Look at the two plants. What happened to plant B? Why?** [2]

Plant B wilted (drooped). It did not get enough water.

2 **A plant was kept in a dark cupboard for a week. What colour will its leaves be?** [1]

○ dark green
● **yellow**
○ red

3 **Why does a plant need healthy roots?** [2]

To hold it in the soil and to take in water.

4 **A plant was left outside on a very cold night. Predict what might happen.** [1]

It may stop growing or be damaged, because plants need the right temperature.

INVESTIGATE · A1 · PLANTS

Does a plant need light to grow?

★★☆
Grade 2

Learning goals

- Do a simple fair test.
- Measure and compare.

Class 2B grew two bean plants. Plant A was by the window. Plant B was in a dark cupboard. They both got the same water. After 10 days they measured them.

1 Complete the table. [2]

	Plant A (light)	Plant B (dark)
Height (cm)	12	15
Colour of leaves	green	yellow
Healthy?	yes	no, weak and thin

2 Plant B is taller, but is it healthier? Why? [2]

No. It grew tall and thin looking for light, but it is yellow and weak.

3 What did they keep the same? [1]

the same amount of water, the same kind of plant and pot

4 Draw the two plants. [2]

A: in the light
short, green, strong

B: in the dark
tall, thin, yellow

REAL-WORLD CASE STUDY · A1 · PLANTS

Mina's rooftop garden

★★★
Grade 2

Learning goals

- Use plant science in real life.
- Solve a problem.

Science | Food | Maths

Mina lives in a flat in Dhaka. There is no garden, so her family grows vegetables in pots on the **roof**: tomatoes, chillies and spinach (*palong shak*). Mina waters the pots every evening.

In April the weather is very hot. Some plants start to wilt in the middle of the day. Mina's mother puts up an old cloth to give some shade, and Mina gives them water early in the morning too. Soon the plants are green and strong again.

A story about a rooftop garden in Dhaka.

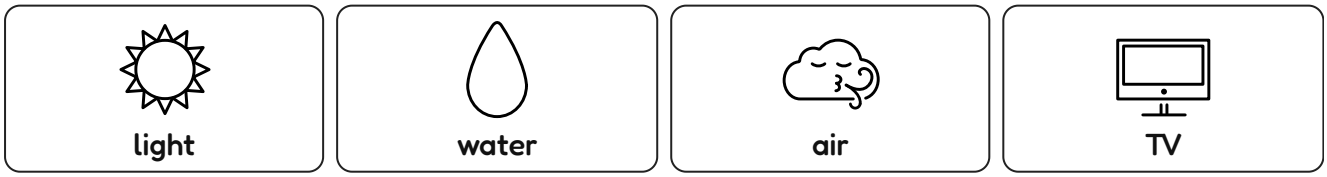

1 Why did the plants wilt? [2]

It was very hot and they lost water; they did not have enough water.

2 What did Mina and her mother do to help the plants? [2]

They gave shade with a cloth and watered the plants in the morning too.

3 What do the plants on the roof need? Circle them. [3]

light, water, air

Show what you know

★★★
Grade 2

Learning goals

- Use plant words.
- Answer questions.

1 Find the words.

A	**R**	C	W	R	M	T	K
D	J	**O**	F	I	U	W	P
W	Y	J	**O**	V	V	E	**F**
A	S	F	**S**	**T**	**E**	**M**	**L**
T	W	S	O	E	O	B	**O**
E	A	F	**S**	**E**	**E**	**D**	**W**
R	L	V	**L**	**E**	**A**	**F**	**E**
O	O	U	E	A	P	D	**R**

flower leaf root seed stem water

2 Which part takes in water? [1]

○ flower
● **roots**
○ leaf

3 Which part makes seeds? [1]

○ stem
● **flower**
○ roots

4 Challenge. Draw a plant and label four parts. [4]

My plant

Plant with roots, stem, leaves, flower labelled.
