Our five senses

★☆☆ Grade 2

Name: Class: Date:

Learning goals

- Name the five senses and the body part for each.
- Explain how we use our senses to learn about the world.
- Describe light and sound using our senses: bright, dark, loud and quiet.

How do you know a mango is ripe? You can **see** it is yellow, **smell** it, **touch** it to feel if it is soft, and **taste** it. Your senses send messages to your **brain**, which tells you what is happening around you.

sight: eyes

hearing: ears

smell: nose

taste: tongue

touch: skin

Sense	Body part	It tells us...
sight	eyes	colour, shape, size, how far away, bright or dark
hearing	ears	loud or quiet sounds, high or low sounds
smell	nose	nice smells like flowers, or bad smells like smoke
taste	tongue	sweet, salty, sour and bitter
touch	skin	hot or cold, rough or smooth, hard or soft

Senses keep us safe

We **smell** smoke and know there may be a fire. We **hear** a car horn and stop. We **feel** a hot pan and pull our hand away. We **taste** milk that has gone sour and do not drink it.

Light and our eyes

We need **light** to see. Light comes from **light sources** such as the Sun, a lamp, a torch and a candle. In a dark room with no light we cannot see anything. Bright light can hurt our eyes: **never look straight at the Sun**.

Sun

lamp

torch

candle

Moon: reflects sunlight

When something blocks the light, it makes a **shadow**.

Sound and our ears

Sounds come from **sound sources**: a drum, a bell, a bird, your voice. Some sounds are **loud**, some are **quiet**, some are **high** (a whistle) and some are **low** (a big drum).

drum

bell

bird

loudspeaker

⚠ Stay safe

Never put anything in your ears or nose. Keep away from very loud sounds and very bright lights.

Key words

senses	sight, hearing, smell, taste and touch
light source	something that gives out light
shadow	a dark shape made when light is blocked
sound source	something that makes a sound

FACT CHECK · A6 · SENSES

Which sense?

★☆☆ Grade 2

Name: _____ **Class:** _____ **Date:** _____

Learning goals

- Match senses to body parts.

Raju uses his other senses

★★★
Grade 2

Name: **Class:** **Date:**

Learning goals

- Learn how people with sight loss use other senses.

Science | Caring for others

Raju cannot see, but he goes to school like everyone else. He reads books in **Braille**: little raised dots that he feels with his **fingers**. He uses a white cane to **feel** the path in front of him and **listens** carefully to the sounds around him.

Raju knows his friends by their **voices** and can tell what is for lunch by the **smell**. His classmates help by keeping bags off the floor and telling him when something moves.

A story about a learner with sight loss.

1 Which senses does Raju use?

[3]

Sense	How Raju uses it
touch	
hearing	
smell	

2 How can classmates help Raju?
